Recognizing the intricate relationships between the many areas of business activity, JBR examines a wide variety of trade decisions, processes and activities within the real business environment. The theoretical and empirical advances in the conduct of the buyer, finance, theory and organizational behavior, marketing, risk and insurance and international business are regularly evaluated. Published for executives, researchers and academics alike, the journal helps to apply empirical research to practical situations and theoretical findings for the reality of the business world. Benefits for authors We also provide many authors' benefits, such as free PDFs, a liberal copyright policy, special discounts in Elsevier publications and much more. Find us in our extensive file collection. The United Kingdom is still a line when it comes to Number of companies operating in FinTech. However, can complications from Brexit lead to loss of land? ESG is much more than a simple exercise of public relations, but communicators have a key role to play. These six essential elements provide a system to ensure that you have all the customers you might want now and in the future. As we can begin to see the light at the end of the tunnel, let us assess what the strange dynamics of the pandemic should have taught the founders of the beginning and how we can use our experiences in a post-pandemic world. As social media platforms lose billions in advertising revenues due to Apple's new transparency function, social trade and AR could become their saving grace while they struggle to re-grown their revenues. A new report finds that most CEOs are working remotely, and many expect it to stay that way. By booking flights and stays in hotels, hidden rates can be added quickly (and in silence). Here we show you how to avoid them. How do the main entrepreneurs create the demand for their business? Everything starts with products and services that matter. Starting a new business or changing careers may be discouraging, but the development of these four proactive habits will illuminate your path to success. How does your personality compare? Do you like to follow rules or make rules? One of the biggest misconceptions that the founders of the startups have is that the capital property must be negotiated before any work done. This problem is easily observable if you trust facts rather than opinions. These six essential elements provide a system to ensure that you have all the customers you might want now and in the future. Is your strategy failing? Discoveryou can do to overcome it and recover from the fault. A book can increase its credibility as an entrepreneur, but throwing a book without a strong personal brand could mean leaving money on the table. You've worked hard to cultivate a certain working environment.
